Senior Software Engineer, Shoplazza

Behind Story

(Mar 2022 - Dec 2024, Full-time, Remote)

Accelerated product development and helped land a total of $150+ million in a series C funding in 2024

- ❖ Build a reliable **cloud-based backend**, ensure high uptime and performance during peak traffic
- ❖ Integrate **Multiple Payment Gateways** (credit cards, digital wallets, and regional payment options)
- ❖ Develop **Product Management Tools** (inventory tracking, bulk product uploads, automated price adjustment)
- ❖ Provide **Global Selling Support** (multi-language & multi-currency options)
- ❖ Offer real-time analytics dashboard with insights into sales performance, customer behavior, and marketing ROI

Full Stack Engineer, Field Trip Health

ReactJS, TypeScript, NodeJS, AWS, React Native

(Feb 2019 - Feb 2022, Full-time, Remote)

Played a pivotal role in the product development

- ❖ Write multi-tier, duo-core backend, support the platform's digital tools and clinics
- ❖ Develop individualized therapy programs based on patient history, goals, and needs
- ❖ Wrote mobile apps for tracking progress, meditation , integration practices and journaling
- ❖ Improved the application performance through query optimization, caching, and threading
- ❖ Ensure patient data is protected in compliance with stringent healthcare standards (a.k.a. HIPAA-Compliant)

Engineering Team Lead, Storibble   NodeJS, TypeScript, React Native, WordPress

(Nov 2018 - Jan 2021, Part-time, Remote)

Led a team of engineers in a startup & agile environment

- ❖ Offer secure cloud storage for media assets and projects
- ❖ Allow teams to work together in real-time on story creation and editing
- ❖ Simplify sharing stories directly on popular social platforms
- ❖ Regularly test stories on various devices and browsers
- ❖ Support clickable hotspots, polls, quizzes , and CTAs(Call-to-Actions)

Freelancing Developer

(Jul 2018 - Jan 2022, Remote)

Worked on ReactJS, VueJS and NodeJS projects on short-term contract basis

Lead Developer, Pine

(Jul 2016 - Dec 2019, Full-time, Hybrid)

Supervised a team of 5 web/mobile developers and 2 designers

Education

Bachelor's Degree in Computer Science, Tsinghua University

(2012 - 2016)

Participated in internships in 2 startups, gained valuable insights for the growing and development of startups, one of them grown professionally and backed by Y combinator
